Step	Action
3.	To open the Global Account Maintenance tab, click the show button. This tab contains the fields that are eligible for updating using the Account Global document. You can complete one or many of the fields, but keep in mind your update will take place on every account included in the Edit List of Accounts tab, regardless of what the original value was.
4.	You can add accounts one at a time, or you can add them all at once by using the Lookup/Add Multiple Account Lines magnifying glass. Please note this form is limited to 24 accounts at a time. To find all accounts belonging to a specific Fiscal Officer , enter that Fiscal Officer's Directory ID in the Fiscal Officer Principal Name field and do a search. The organization code can also be used to search for the applicable accounts to be changed. Click the select accounts and then return selected to add the accounts to the Account Global documents.
5.	When you have edited the applicable fields and added the accounts, you will be ready to submit the documents. Note: Unlike the Account document, this document does not route to the Fiscal Officer for approval.
